

**CLERK OF COURTS
HIGHLANDS COUNTY, FLORIDA
Quarterly Investment Report for FY 19-20
June 30, 2020**

INTRODUCTION

The formal written investment policy sets forth the investment objectives and parameters for investment decisions made by the Highlands County Clerk of Courts (Clerk). The investment policy applies to all cash and investments, under the direct control of the Highlands County Clerk of Courts, in excess of those required to meet current expenses. This policy does not apply to any funds held on behalf of any of the other Constitutional Officers.

In accordance with the investment policy, this investment report is being submitted to the Clerk of Courts.

SIGNIFICANT CHANGES TO CLERK’S PORTFOLIO

In May 2020, the Clerk started transitioning their clearing and support accounts from TD Bank to SunTrust Bank. On June 24, 2020, an official request was submitted to TD Bank authorizing them to close the Clerk Support account.

PORTFOLIO SUMMARY

The primary objectives of the Clerk’s investment activities are Safety, Liquidity, and Yield. The following is a summary of the Clerk’s portfolio as of June 30, 2020. A comprehensive table of the Clerk’s investment portfolio can be found in the appendix.

Safety

Safety of principal is the foremost objective of the Clerk’s investment policy. The Clerk’s investment policy sets diversification limits to minimize the risk of loss resulting from over concentration of assets in a specific maturity, issuer, instrument, dealer or bank. To quickly evaluate portfolio percentage limitations, please see Tables 1 and 2 below. These tables show the actual percentages invested, compared to the maximum allowed percentages as indicated in the policy.

Table 1: Portfolio Institution Limitations

Institution	Investment Actual	Policy Limitation
SunTrust Bank	53.57%	80.00%
TD Bank	15.02%	80.00%
FL PRIME	31.41%	30.00%

Table 2: Portfolio Instrument Type Limitations

Instrument Type	Investment Actual	Policy Limitation
Public Funds Depository Accounts	68.59%	80.00%
Certificates of Deposit	0.00%	50.00%
Local Government Investment Pools	31.41%	75.00%

As shown in Table 1, the Clerk’s portfolio is compliant with its institution diversification policy limitations, except FL PRIME as of June 30, 2020. However, in compliance with policy, all institution type diversifications met policy limitations at their time of purchase. As shown in Table 2, as of June 30, all instrument type limitations were met.

State Statutes require that public funds only be deposited in financial institutions that are certified as a qualified public depository (QPD) by the State of Florida. The QPD program is a voluntary, statewide collateralization program that provides protection of public funds, similar to FDIC insurance. All funds deposited with SunTrust Bank, TD Bank, and CenterState Bank are fully collateralized under the QPD program.

Liquidity

The Clerk’s Investment Portfolio consists largely of investments with active secondary or resale markets to allow for dynamic liquidity to ensure all cash demands are met. As of June 30, 2020, the weighted average maturity (WAM) of the portfolio is 0 days.

Yield

The Investment Portfolio is limited to relatively low risk investments in anticipation of earning a fair return relative to the risk assumed. As of June 30, 2020, the portfolio’s 30-day weighted average yield is 0.098% which is 0.080% higher than our benchmark (S&P Rated Government Investment Pool Index) of 0.018%. The portfolio’s 12-month weighted average yield is 1.353% which is 1.133% higher than our 12-month yield benchmark of 0.220%.
